

APEX CYBER GUARDIANS

DoD & Federal Cybersecurity Capability Statement

Bryan Paul · bryanpaul@apexcyberguardians.com · 781-524-8745 · www.apexcyberguardians.com

Apex Cyber Guardians is a Saugus, Massachusetts-based cybersecurity consulting firm providing expert security advisory, compliance, and risk management to defense contractors, government agencies, healthcare organizations, and commercial enterprises. Led by Bryan Paul, with direct DoD RMF experience at Raytheon and Draper Laboratory and enterprise cloud security, GRC, and compliance leadership.

CORE CAPABILITIES		COMPANY DATA		
RMF/ATO Lifecycle Support	UEI	NB7LBDAKU354	CAGE	23MG8
Built and maintained RMF authorization packages — SSPs, SARs, and POA&Ms — supporting DoD Assessment & Authorization. Served as ISSO, ISSE, and ISSM at Raytheon and Draper Laboratory; hands-on with eMASS, ACAS, and HBSS/ESS.	NAICS (Primary)	541512	NAICS (Secondary)	541519, 541690
	Business Type	Small Business	SAM.gov	Registered
Continuous Monitoring & ATO Sustainment	CERTIFICATIONS			
Applied NIST 800-53 controls and RMF methodology across cloud and on-premise environments, including control implementation, gap analysis, ongoing vulnerability scanning, and compliance monitoring.	CompTIA Security+ ISO 27001 Lead Auditor			
Security Documentation & Bodies of Evidence	CLEARANCE			
Developed and maintained RMF authorization packages, cybersecurity policies and procedures, incident response plans, and compliance documentation aligned to federal and DoD requirements.	Previously held DoD Secret clearance (2012–2022).			
CMMC & NIST 800-171 Compliance	DIFFERENTIATORS			
CMMC Level 1 and Level 2 gap assessments, policy alignment, and documentation preparation in support of DoD contract compliance requirements.	DoD RMF Expertise: RMF packages built as ISSO/ISSE/ISSM at Raytheon and Draper Laboratory. Local Availability: Saugus, MA-based and local to Hanscom AFB and the North Shore. Enterprise + Boutique: Director-level leadership with small-business responsiveness.			
Vulnerability Management	TEAMING			
Hands-on with ACAS and HBSS/ESS for continuous vulnerability scanning and compliance monitoring. POA&Ms track open findings, remediation owners, and closure within defined timelines.	Available as a subcontractor or teaming partner on DoD and federal programs. RMF/ATO, ISSO/ISSM staffing, and CMMC support.			
Identity, PAM & Zero Trust Advisory				
Enterprise security architecture and identity program leadership, including privileged access management, SAML/SSO integration with Okta, and least-privilege policy rollout.				

KEY PERSONNEL EXPERIENCE

ISSO / ISSE / ISSM — Raytheon & Draper Laboratory: Developed and maintained RMF authorization packages across DoD programs, serving as Information System Security Officer, Engineer, and Manager.

Associate Director, Information Security Architecture & Engineering — ElevateBio: Owned SOC 1/2, HIPAA, ISO 27001, and HITRUST compliance roadmap; led security architecture.

Cybersecurity Consultant — Beyond Missions Capable Solutions: Supported the U.S. Air Force Platform One DevSecOps program.
